"The Talisman" was chosen as the name for the yearbook because of its significance in the days of the knights. Each knight took forth with him to battle a "Talisman", which is a charm, to protect him. It could be a cross, a neck chain, or his lady's scarf. We hope this "Talisman" will bring you good luck throughout the coming years.

P.S. be good

Dear Students:

May I express to you my personal appreciation for the way in which you conducted yourself during this first school year at San Marcos High School

Your job was to initiate student body activities and to set a high tradition of scholarship for future students to follow. Your well-organized student body, your high morale, your careful treatment of the school buildings and grounds, and your fine scholastic accomplishments are evidence of faithfully meeting this challenge.

In today's world we face uncertain conditions. You well know the responsibility that you young people face in helping to shape the future. With the fine start in life you have made in your school affairs, I feel confident that you will do your part in helping to bring about better world conditions.

The future belongs to those who have an adequate educational background and who know how to apply it. You students have these qualifications--now use them.

Congratulations to the first graduates of San Marcos High School--the class of 1962. May your achievements continue as you disperse from this school and locate yourselves throughout the country and the world.

Sincerely yours,

G. W. QUADE
District Superintendent

GWQ/mp

To the Class of '62:

We wish to congratulate the class of '62 for the excellent leadership you have shown in helping to extablish San Marcos High School. The start that you have made will certainly serve as a guiding light for other classes to follow. I feel confident their achievements, like yours, will bring honor and prestige to your alma mater.

It is hoped that you will continue to bear allegiance to those ideals of human endeavor that so vividly typify the really truly American.

The future, at times, seems rather bleak and uncertain; however, if each youth of your generation properly prepares to assume his rightful share of adult responsibility, the years ahead will, I am sure, be much brighter.

We would encourage each of you to take advantage of all future educational opportunities.

Best wishes and good luck to you in all of your undertakings.

Sincerely,

W. P. RADNEY

KNIGHTS,

As we come to the close of this, our first year at San Marcos High School, I cannot help but marvel at the accomplishments that have been made by our school. I am gratified at the achievements of each individual student and faculty member. As a first year small high school, our students have excelled scholastically, have developed good citizenship habits and have conducted an outstanding student body activities' program. I feel that we can be proud of our accomplishments.

We have organized and are conducting an over-all educational program that is based on maintaining high standards in all phases of the program. By insisting that these standards be met, we have developed a strong program in a period of time that normally takes much longer to accomplish for most schools of our size. With continued hard work, observance of high standards and continued support by our student body and staff, this program will be further strengthened.

Our future can be great! With this thought in mind I urge all of you to assist in keeping our academic and citizenship standards high. Be proud of San Marcos High School and make the school proud of you!

My sincere thanks to each student, faculty member and non-certificated employee for having made this an outstanding first year.

Sincerely,
RICHARD L. BIVIN
Principal

KNIGHTS:

Serving as your ASB President has been a wonderful experience and a lot of fun too. I feel it was a great honor to be your first student body president. I would like to thank all of you for making it possible.

Since this was the first year of our school it has been a tough year for all of us. But through these times I believe we have had more opportunities to improve ourselves. Although we were the smallest school in the league our sports and academic achievements have stood out. This was due, to a large extent, to our fine coaches and teachers, school loyalty, spirit and hard work.

Being a new school created many opportunities for us. Many of us who didn't participate in school activities before were able to be in athletics and other extra-curricular activities.

I would like to thank our cabinet members and Mr. Bivin for all the hours they gave to make this year a success. Without them many things would not have been accomplished.

I sincerely hope you have enjoyed the ASB activities this year as much as we have enjoyed planning them for you. I hope I have a chance to meet you all again in the near future.

# SPORTS

Even though we were the smallest school in the league, we turned out a football record to be proud of. With a fine team and high spirit how else could it have been? The climax of the season was the tremendous win over Poway. That night the San Marcos Knights showed what they were made of. A game that was predicted to be even turned out 26-0 in our favor. The crowd went wild as the Knights drove over the Titan line four times. That memorable game will be remembered by Knights for many years to come.
